

About me

I'm a results-driven web developer with 3 years of experience designing, developing, and maintaining websites for a variety of clients. I'm passionate about exploring the latest trends and enjoy experimenting with new features and tools.

I began my journey in support, where I gained a strong foundation by troubleshooting front-end and server-side issues, creating new components, and communicating directly with clients to clarify requirements, estimate development time, and suggest improvements.

Over time, I transitioned into project-based work, contributing to sprint planning, task organization, and story point assignments. I've consistently delivered on tight deadlines and played a key role in several successful launches.

Beyond just building visually appealing interfaces, I'm committed to crafting experiences that are intuitive and enjoyable for users.

Professional Experience

Web Developer | Trew Knowledge (2022 – present)

Clients included: *RBC, Maple Leaf Corporation and its subsidiaries, Canadian Olympic Committee, XTalks, Friends Publishing, HousingWire,, Sonova, Dentistry for Children, and more.*

- Developed and customized Gutenberg blocks for WordPress to enhance user experience.
- Conducted code reviews and quality analysis, ensuring coding standards are met.
- Collaborated with designers and product managers to define project requirements, goals, and implement new features.
- Designed and developed custom WordPress plugins, extending site functionality and optimizing API integrations.
- Modernized and updated obsolete APIs, creating more efficient solutions with sustainable and easy to read code.
- Quality assurance to ensure cross-browser compatibility and mobile responsiveness.
- Provided technical support for numerous clients, troubleshooting issues, and refining site performance.
- Adapted to and worked with diverse legacy codebases, resolving issues and improving overall functionality.
- Worked closely with senior developers to implement new features, and restore and recover crashed websites, ensuring minimal downtime.
- Performed routine website updates and maintenance to ensure smooth operation.

Education

BACHELOR OF ARTS & SCIENCE, PHILOSOPHY - CONCORDIA

WEB DEVELOPMENT - DECODEMTL/CONCORDIA (*june – september 2022*)

- 3-month intensive bootcamp where I learned the tools to be a full stack developer while building projects along the way.
