

About me

Results-driven Front-End Developer with 3+ years of experience building modern, responsive, and high-performance websites. Skilled at transforming complex requirements into elegant user interfaces using cutting-edge frameworks and tools. Strong foundation in troubleshooting, client communication, and agile workflows. Passionate about crafting seamless user experiences and continually learning the latest front-end technologies.

Professional Experience

Web Developer | Trew Knowledge (2022 – present)

Clients: RBC, Maple Leaf Corporation, Canadian Olympic Committee, XTalks, Friends Publishing, HousingWire, Sonova, Dentistry for Children, and others.

- Designed and developed custom Gutenberg blocks and WordPress plugins, enhancing site functionality and user experience.
- Delivered responsive, cross-browser front-end solutions using React, Next.js, TypeScript, Tailwind CSS, and SCSS.
- Modernized legacy APIs and optimized integrations, improving efficiency and reducing technical debt.
- Collaborated with designers, PMs, and senior developers in Agile sprint planning, story estimation, and code reviews.
- Implemented robust QA testing pipelines, ensuring pixel-perfect designs and accessibility compliance.
- Restored and recovered crashed websites under tight deadlines, minimizing downtime.
- Provided ongoing support and maintenance, monitoring performance and delivering client-focused solutions.

Key Achievements:

- Spearheaded modernization of multiple client sites, reducing load times by up to **40%**.
- Built reusable block components that increased development speed and consistency across projects.

Education

Web Development Bootcamp – Concordia / DecodeMTL (2022)

Intensive 12-week program covering full-stack development with hands-on projects.

Bachelor of Arts & Science, Philosophy – Concordia University

Technical Skills

- **Front-End:**
HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, React, Next.js, Angular, jQuery, Tailwind CSS, Bootstrap, Three.js
- **Back-End & Databases:**
Node.js, PHP, Express.js, MySQL, MongoDB
- **Tools & Platforms:**
Git, GitHub, GitKraken, Gulp, NPM, Yarn, Docker, Postman, Bruno, Cursor, Visual Studio Code, Figma, Adobe XD, Vercel
- **Other:**
RESTful APIs, GraphQL, AJAX, JSON, CI/CD pipelines, Unit Testing (Jest), Agile & Scrum

Highlights & Strengths

- **Adaptable problem solver** – Successfully modernized legacy WordPress and API codebases for enterprise clients, improving maintainability and reducing bug reports by **30%**.
- **Client-focused communicator** – Partnered directly with clients like RBC and the Canadian Olympic Committee to clarify requirements, provide accurate time estimates, and deliver tailored improvements that boosted client satisfaction scores.
- **Continuous learner & innovator** – Proactively explore and implement modern tools, including Web3 integrations, serverless functions, and AI-powered front-end features, to stay ahead of industry trends.
- **Proven under pressure** – Consistently delivered high-quality work under tight deadlines, including rapid recovery of client websites with **minimal downtime** during critical business periods.
- **UI/UX collaboration** – Translated Figma/Adobe XD designs into responsive, accessible, and pixel-perfect builds, ensuring seamless cross-device experiences.
- **Performance-driven** – Implemented optimizations that cut page load times by up to 40%, directly enhancing SEO rankings and user engagement.

Interests

- 3D modeling and printing. 3D modeling experience using Fusion 3D and Cinema 4D.

- Graphics design and video editing. Experienced with Photoshop, Cinema 4D, After Effects, Sony Vegas Pro, DaVinci Resolve, CapCut, and Illustrator.
- Designing and crafting items with leather and/or wood.
